

## **SPECIAL COOPERATION AGREEMENT WITH FIELD VOLUNTEERS**

Hereby, I, Manuel Herranz, president of HUM, Human Unity Movement invite you to become a volunteer of our cause for human unity. Please, see the general terms for volunteers in the previously attached document.

Our aim is to achieve ceasefire in the conflict area, based on the common support of the people there for human unity, to be carried out in an open and transparent Congress on Human Unity to be held in 2025.

People supporting human unity consequently belong both sides in conflict, cares about Humanity and actively seek a ceasefire agreement to give opportunity and publicity to human unity by the Congress celebration because peace needs universality and simultaneity, since unilateral peace or disarmament is nonsense since it is not disarmament but service to another arm.

Indeed, even if every person in the world wants peace, peace needs real universality which is also simultaneity, for it to be feasible, and since the states, which can easily achieve universality, cannot be agents of peace, it must be our voluntary work what will provide it, fulfilling the condition for peace. Therefore, along with the Congress we fix our reward for ourselves, the volunteers, achieving universality for the Congress call. So here is a more detailed rewards proposal for field volunteers:

1. As Humanity's friends 0,5USD trillion/100 m people = 5000 US dollars per person.
2. As Humanity's friends specially contributing donating or adding people we use 0,5 trillion. Field volunteers are in the right position to add lot of people to your profile particularly from the refugee camps or from illiterate people. Here the reward is to be proportionally distributed therefore it is not predetermine. The rate is:  $0,5 \text{ trillion USD} \cdot \frac{\text{total points}}{\text{your points}} = \% 0,5 \text{ t}$ .

I cannot estimate the possible reward amount, but I can say that, while all other volunteer people work only on the internet and therefore they cannot add people in their profiles or very few people, since the people connected on the internet can sign up by themselves, volunteers on the field can achieve a great number of people added in their profiles and this is their opportunity to get a real great reward.

(But we have to try that each person sign up directly and cheating annulate the reward, please, think that each person will be identified and confirmed for the reward to be executed)

3. Field volunteers might well work with HUM in the Humanity Festival and Congress preparation, and a salary of 1500 US dollars x month x 20 months = 30000 US dollar salary. However, this is considering full time work. Most of the people can be employed in part time jobs according with a group or area leader.

Please, remember that, as you can see in our general Proposal for Volunteers, the reward is your, our own decision (I, Manuel Herranz, am also a volunteer) that we freely and openly are including in the Congress proposal to the world, to the rest of Humanity. It is not that HUM that gives any reward or payment to you because HUM has not funds. We create this good for ourselves. The guarantee and donor of this amount are not the states, but the Humanity's Congress which issues the new currency for the world, and the Congress is called by us with this condition included in its call and people accepting the Congress are also accepting this condition as we are proposing it to everyone open and transparently for everyone to know.

However, even if HUM has not funds now, if we get donations through the app or the site as we expect, you will be considered to receive a share for you to be able to reach further with your work (other shares shall go to improve the app and website or for some other publicity for the Congress call. This will be always transparent to you and to anybody.)

Now, if you agree with this assuming this volunteer job you have to work and cooperate in good faith with your colleagues so to share the best practices for our common purpose, as creating blogs, groups, using pyramidal networks working for you under the condition of this agreement and in good faith, etc. and you have to achieve a sensible number of signatures to keep in our team. And being transparent in front of our bosses, all humans. As said above what we are doing now is providing universality and simultaneity to the unity/peace/disarmament proposal since this is the condition for peace to be achieved, so we are working with other groups in other parts of the world for ceasefire and publicity for it. And we expect to have enough relevance so soon as to be able to call in some months for the Humanity's Festival.

Only if we success we will be rewarded, but even more important is to achieve peace in the whole world, because "without peace it cannot be any good", and "peace is the source of all goods"

HUM president  
Manuel Herranz
