

PEACE IS UNITY

Human Unity – Proposal for a world without weapons or fear.

Personal Proposal for Participation in a Project of Human Unity and the Establishment of Peace

Manuel Herranz Martín
www.human-unity.org

From the logic of war to the logic of Human Unity

Globalization and modern means of communication place everyone in the world in contact.

The destructive capacity of States and the proliferation of weapons of mass destruction place Humanity at existential risk.

Human Unity is the next logical stage in human social development.

Common Sense, Not Beliefs

We appeal to certain knowledge, that of common sense and the humanity we all possess: the capacity to put ourselves in another's place.

We do not refer to ideologies, religions, or flags that divide us.

Do we really know what we are working for?

People work hard. They create wealth. Families struggle to move forward.

But the priority and urgency of States is not the wellbeing and development of people; it is defense against others. That is why they exploit their human and natural resources until they are exhausted and depleted as if there were no tomorrow.

Is this what we want?

States do not allow us to see that human beings are equal, because that would weaken them.

For this reason, this reflection and movement for unity is made and promoted from www.human-unity.org for the whole world.

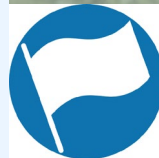

THE TRUTH THAT WE CAN ALL SEE

Our problem is not (only) war.
War —which basically consists of
disarming the enemy— is a
consequence of the weapon.

The weapon is for killing or
dominating, but it forces the
other to defend themselves also
with weapons and not remain at
their mercy.

And the one who has the greatest
capacity to kill the other prevails.

**No policy can change this. Only
human unity can.**

The Deception of Good Will

Violence organizes us, not will

There cannot be goodwill while being separated, because exclusion forces us to be organized in armed units and to “defend ourselves” —to harm and kill.

And, for this, we organize ourselves through force or violence, that is: hierarchically and pyramidally, and although we are made to believe and confess that we cooperate voluntarily, the system takes care not to depend on our will but on our conditioning.

But today goodwill means promoting human unity.

OUR POWER IS TRUTH

The moment has come

Human unity is the cause of goodwill —united, logically, we exclude harm and seek the common good.

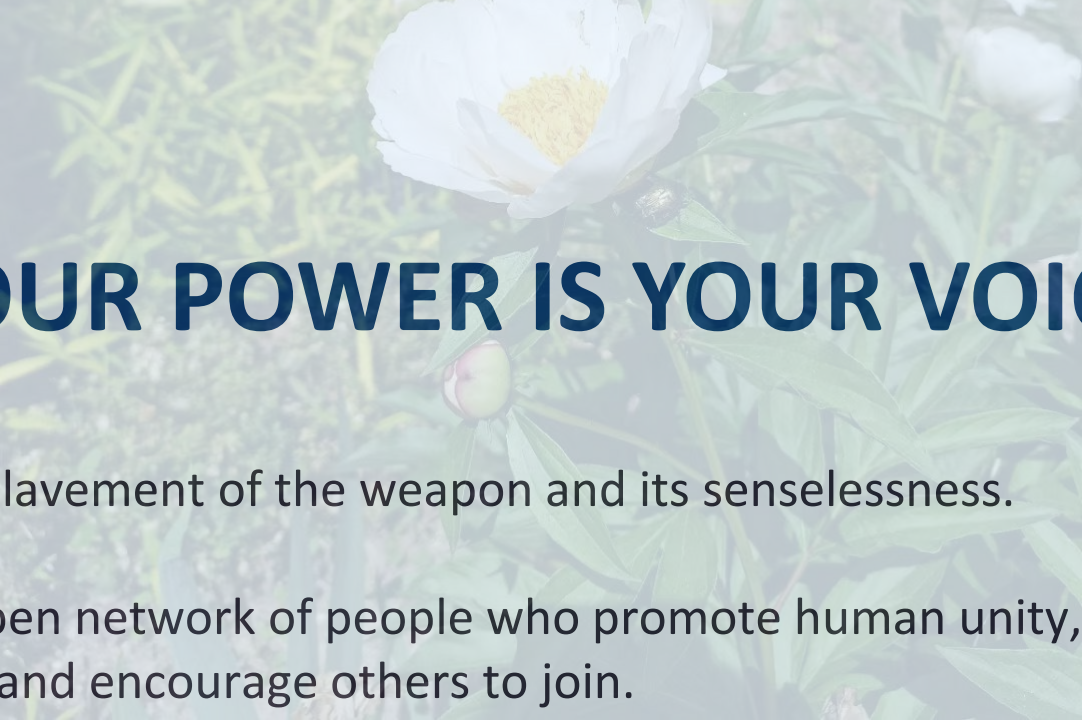

To want unity is to want to stop harming each other.

This means that we ask countries to jointly stop not only wars but also the production and development of weapons.

Then our will is freed from the weapon for mutual help, and resources are freed for our service.

TRUTH IS HUMAN, AND SHARING IT IS YOUR DECISION.

YOUR POWER IS YOUR VOICE

I SEE: The enslavement of the weapon and its senselessness.

I JOIN: The open network of people who promote human unity, I share this message and encourage others to join.

I TAKE A STAND: I demand that my government and all governments jointly cease the use and development of the weapon.

Understanding the logic of unity is the strength to act freely, each from their place, but united by the same purpose.

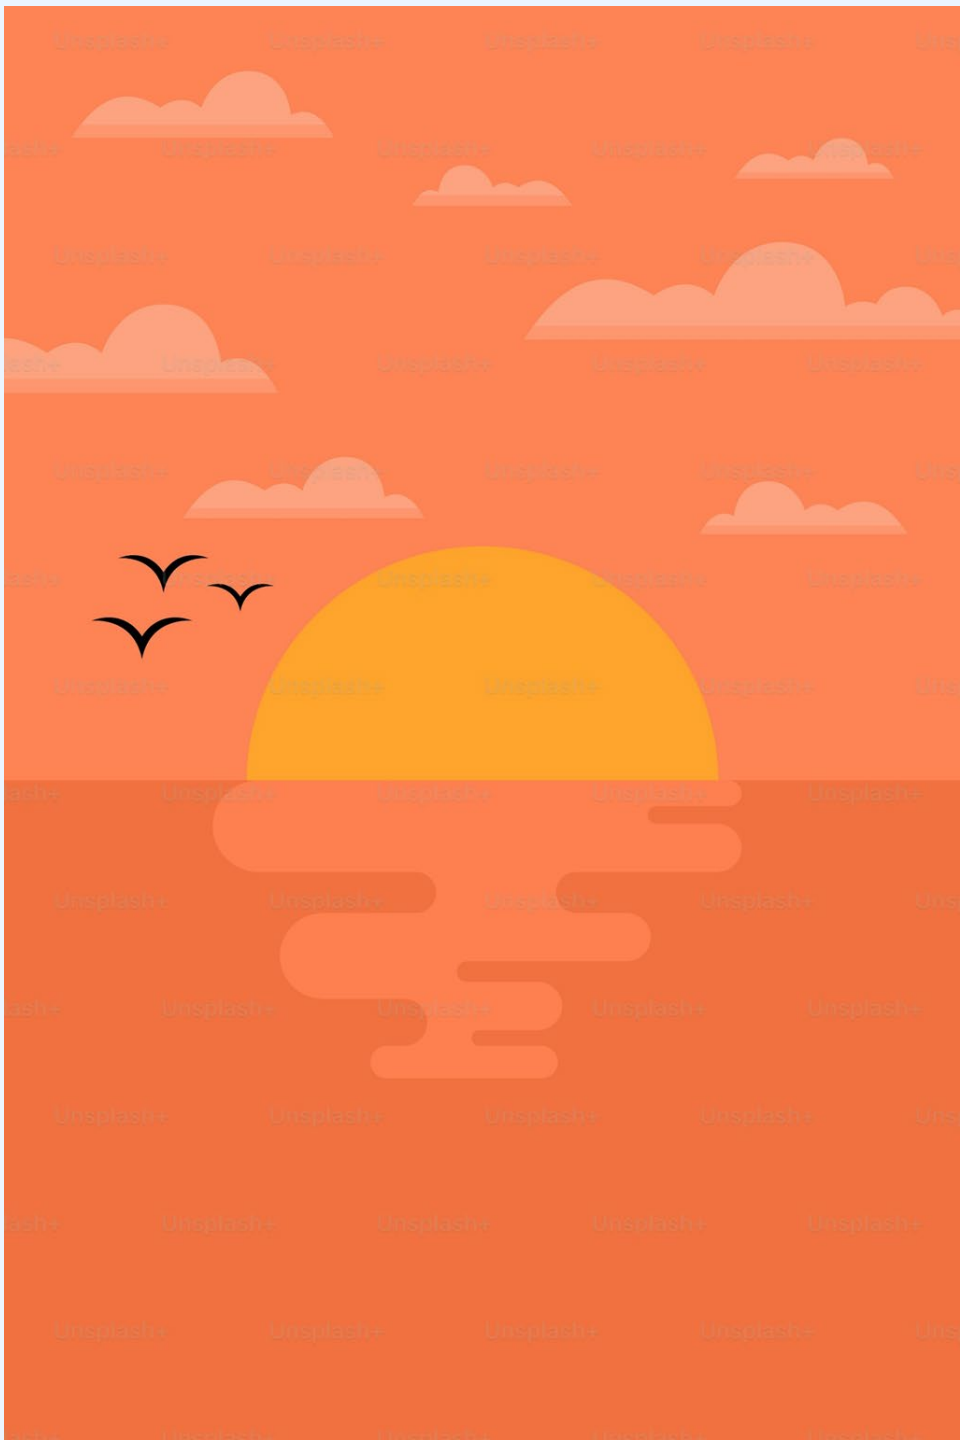

Concrete Call to Action

A Clear Message to the Government

"We demand that our government communicate to all States the proposal for peace or human unity with the joint cessation of mutual harm, that is; with the universal cessation of the use, production and development of the weapon."

And we call on all human beings to demand and guarantee the fulfillment of that agreement.

Act freely and multiply Unity

Create your Human Unity Group

Visit www.human-unity.org where you will find the foundations for our cooperation as volunteers to achieve unity, peace, and human concord forever.

- 1 Create a group called Human Unity – [Your Country/City] on WhatsApp or the social network in your area.
- 2 Invite everyone to join, but ensure that 3 to 5 people create their group, and so on.
- 3 Be the voice of logic.

Each group is autonomous. There are no hierarchies or leaders.

Likewise, all resources are common.

We all share the same guide: common reason and the website www.human-unity.org
