3 TEXTS FOR REFLECTION AND CONTACT

1 Short contact text (to share)

This is a simple and human invitation.

Join the **Human Unity** initiative.

Unity is, in essence, peace, harmony, well-being, and shared human development. Quite simply, it is what benefits everyone.

A universal agreement is necessary, because unilateral action — without agreement with others — does not succeed and only leads to loss.

In the past, universal action was impossible; today it is not.

Since ancient times, it has been understood that true peace is human unity. However, in a fragmented and disconnected world, this understanding could not be transmitted. Yet it is a rational, human, common-sense insight.

If you understand this:

Join the group in your city listed below, or contact **Manuel Herranz**, promoter of this initiative.

2 Personal involvement text

You are necessary.

Political authorities are tasked with managing partiality and the unilateral nature of the State, which leads them to administer force and imposition. This task does not allow for the initiative of human unity.

Human peace cannot be imposed; it arises from human understanding, is shared freely, and is voluntary.

Therefore, this initiative:

- Is not conditioned by any State
- Does not depend on money
- Does not manage funds or establish legal ties

We are simply an association of free and equal people, united by common sense, which allows us to distinguish right from wrong and makes us equally dignified.

This does not mean we do not respect authorities. They are human as well, and we understand that disrespect would only generate more violence.

Our purpose is to make human unity known globally as an alternative to war and violence, and to help authorities recognize this human desire and pass it on to their counterparts worldwide.

3 What is Human Unity?

Human unity is the universal and simultaneous agreement to stop harming one another. This is already cooperation for the common good — there is no alternative between the two.

It is not only about stopping mutual destruction — war — but also about ceasing to seek harm against others, namely by arming ourselves. Armament, linked to separation, generates endless reciprocal reactions.

The true cause of violence is violence itself.

Weapons and armies exist only against other weapons and armies. United, we would only need police forces.

Human violence is mainly virtual — conditioning through threat — and cannot end unilaterally. That is why our time allows something new:

👉 a simultaneous agreement and action to stop mutual harm, freeing our minds and resources from the need to defend ourselves from one another.

This allows us to choose what naturally benefits us: cooperation for the common good instead of destruction.

Thank you for being here. We are already part of the change.

PRACTICAL ACTION

Invitation to participate and share

Below are the contacts for each group so that everyone can join the group corresponding to their city.

If it is a new city, a new group will be created. For this, you may contact me in the Guadalajara (Spain) group. Later on, you may also manage the creation of groups or pages yourselves.

I encourage you to share this information with friends, acquaintances, and neighbors. Everyone is welcome: every expression of willingness for peace is valuable, for us and for the world.

I also invite you to visit groups from other cities, to share and fraternize as the brothers and sisters we are, and even to support one another when possible, as we create a new world together.

To the administrators, please remember that you are at the service of the community, and share the administrator role with those you believe can contribute more from that position.

Remember that we are all equally valuable, as each of us represents all of Humanity. Our human mind makes us interdependent and unites us.

If any inappropriate behavior or behavior contrary to our purpose arises, I ask for patience and caution.

However, if an attitude clearly challenges the spirit of peace, harmony, and human unity, that person should be removed from the group.

Thank you all.

SOME SUGGESTIONS

- 1** Be consistent in sharing this message and invite at least one person each week.
- 2** There is no need to convince anyone; simply sharing the existence of the group is enough. Each person must understand it for themselves, inwardly.
- 3** You may choose to take on some roles within the groups, if you wish, though this is not essential.

For example:

- Someone who welcomes new members.
- Someone who shares previous texts or guides newcomers.

- 4** Normalize silence: it is not necessary to write. Being present is also participation.
- 5** We are not seeking followers, but a shared awareness.
